Platon

"Nutopia has no land, no boundaries, no passports, only people." – John Lennon

You are invited to the one-night-only inaugural group exhibition of the Nutopia Forum. Conceived by the famed photographer Platon, the Nutopia Forum is a collective of young photographers who meet regularly to discuss their photography and share new work. In the spirit of 17th-century French salons, the Nutopia Forum creates a democratic environment for photography to be discussed and celebrated in all forms and genres.

In order to maintain the intimacy of a small social gathering, the Nutopia Forum meetings operate on an invitation-only basis. *The ShowNight* will be the first time we open our doors to the general public to view our work as a collective. Bring friends & countrymen along with a healthy supply of booze & good spirits for an evening of photography & debaucheries.

Cheers!
The Nutopia Forum
